Versatile and purposeful Full-Stack .NET Developer with over 2 years of experience in developing web applications and plugins using .NET technologies. Proficient in Autodesk Platform Services, MSSQL, and various front-end technologies. Demonstrated ability to deliver high-quality software solutions that enhance operational efficiency and create impactful user experiences. Strong problem-solving, teamwork, and communication skills. Committed to continuous learning and professional growth.

EDUCATION

Lovely Professional University, Phagwara Punjab
Bachelor of Technology (Computer Science) | CGPA – 6.9 / 10

2022

Kendriya Vidyalaya Bharatpur, Rajasthan
Intermediate (PCM-CS) | Examination Score - 67%

2018

WORK EXPERIENCE

Full-Stack .NET Developer (Siemens Energy)

July 2022 - Present

- Developed an Integrated 3D Viewer using Autodesk Platform Services (APS), enhancing visualization capabilities, and improving user interaction by 20%.
- Utilized APS APIs, MSSQL, Three.js, jQuery, Chart.js, and Bootstrap to deliver robust web application solutions and Engineered plugins for AutoCAD, Autodesk Inventor, and Autodesk Navisworks using .NET technology.
- Improved application performance by optimizing database queries, reducing load times by 25% and collaborating with cross-functional teams to deliver high-quality software solutions, resulting in a 15% increase in project efficiency.
- Led the migration of legacy systems to modern .NET Core frameworks, reducing system maintenance costs by 20%.
- Implemented CI/CD pipelines using Azure DevOps, decreasing deployment times by 30% and Conducted code reviews and mentored junior developers, enhancing team productivity and code quality.

Full-Stack .NET Intern (Siemens Energy)

April 2022 – July 2022

- Designed a web application for maintaining critical data for Autodesk Inventor Plugin with ASP.NET and MS SQL and Implemented Entity Framework for efficient data management.
- Created a reusable Angular component library, streamlining development processes across the company and successfully deployed the web application, reducing manual data entry errors by 20%.
- Participated in the full software development lifecycle, from requirements gathering to deployment and automated routine tasks using custom scripts, saving approximately 10 hours of manual work per week.
- Contributed to the design and development of RESTful APIs, facilitating seamless data integration.

PROJECTS

Smart Parking System

January 2021

Developed an intelligent parking management system optimizing space utilization and reducing parking time by 30%.

Technologies used: ASP.NET, MSSQL, Angular, Bootstrap.

Web Development Project

April 2019

Built a dynamic website with modern web technologies, improving user engagement by 20%.

Technologies used: HTML, CSS, JavaScript, Node.js.

Crypton Linux

April 2019

Contributed to the development of a secure Linux distribution, enhancing system security and stability.

Technologies used: C, Shell Scripting, Linux.

Store Management System

October 2018

Created a system to manage inventory and sales for retail stores, increasing inventory accuracy by 15%.

Technologies used: Java, MySQL, JSP

CERTIFICATIONS

- Summer Internship from 'GPCSSI (Gurugram Police Cyber Cell),' 2021
- Project Expo from Lovely Professional University, 2019
- HTML, CSS, and JavaScript from Duke University, 2018
- Hack-X-Ploit from Lovely Professional University, 2018

SKILLS

Languages & Frameworks: C#, TypeScript, JavaScript, SQL, ASP.NET, .NET Core

Web Technologies: HTML, CSS, Bootstrap, Angular

Database Management: MSSQL, Entity Framework

Cloud Services: AWS

Development Practices: API Development, API Testing, CI/CD, DBMS, Version Control (Git), Agile Methodologies

Soft Skills: Strong problem-solving abilities, Excellent teamwork and collaboration, Effective communication skills, Attention to detail, Adaptability and quick learning
